

Dear Patients,

concerning the new Corona-Virus (SARS-CoV-2) we kindly ask you to help us to stop the spreading of infections.

To prevent transmission of infections via our waiting room, we ask you not to come to our office with symptoms of a common cold (coughing, sore throat, running nose, mild fever,...).

Stay at home and avoid contact to other people until the symptoms wear off completely.

In case you are unsure whether you need medical treatment and/or need a sick note, please contact us via mail or telephone: **(030) 217 28 22 / [praxismansteinstr.7@gmail.com](mailto:praxismansteinstr.7@gmail.com)**

Please leave your telephone number and ensure your availability, one of our doctors is then going to call you to arrange further steps.

At night and the weekend, you may call the emergency medical service of KV Berlin via (030) 116 117 if you feel severely sick or suffer from high fever >39°C.

In case of reasonable suspicion of an infection with SARS-CoV-2 (Symptoms of a cold AND stay in an area with high infection rates or contact to a patient with proven infection) please directly contact the public health department! (In Schöneberg: **(030) 90 277 7351**)

For any other questions concerning SARS-CoV-2 use the hotline of the Berlin Senatsverwaltung: **(030) 90 28 28 28**

Thank you very much for your compliance!

Dr. Brand

General information for the prevention of infections:

1. Thoroughly wash your hands with soap regularly (at least 30 s)
2. Don't sneeze/cough in your palm but into the crook of your arm
3. Keep distance (2m) to obviously sick persons
4. Don't touch your face or eat without washing your hands before
5. Avoid crowds if possible
6. In case you feel sick or develop symptoms of a cold please stay at home until full recovery to prevent transmission of infections
